JOB DESCRIPTION

Job Title: C# Developer

Concorde combines innovative technology with years of customer experience to enable organisations to manage the cost and value of software. The company has awards from Microsoft and has just been awarded Gartner 'Cool Vendor' status. During this exciting time, we are expanding our Development team and are looking to recruit self-motivated and dynamic individuals who want to be part of the continuing success story.

Job Description:

The role involves helping maintain our existing web facing SaaS solution for our worldwide customer base, as well as working on developing future solutions.

You will be working within a structured team to review and implement solutions in a timely manner using best practice processes and software development methodologies. A keen eye for accurate detail, a can-do attitude and a desire for continuous improvement are all essential requirements for this role.

Essential Skills:

- Excellent C# Skills
- Demonstrable experience of working with WCF
- Demonstrable experience of working with MVC
- 3 years experience of software development full-lifecycle including specification writing
- Strong understanding of OOP concepts
- Experience of working to structured development processes and methodologies
- Extensive experience of client and server-side web development (HTML, CSS, XML, AJAX, JavaScript, MVC Frameworks, Web Standards)
- Strong Microsoft SQL Server & Scripting experience including SQL Server 2008
- High attention to detail and exceptional technical knowledge.

Desirable Skills:

- Experience with ODATA, ATOM, JSON
- Experience working in an agile environment
- .Net development qualifications
