JOB DESCRIPTION

Job Title: Oracle Licensing Consultant

The Company

Concorde combines innovative technology with years of customer experience to enable organisations to manage the cost and value of software. The company has many awards from Microsoft and has just been awarded Gartner 'Cool Vendor' status. During this exciting time, we are expanding our licensing team and are looking to recruit self-motivated and dynamic individuals who want to be part of our continuing success story.

Brief Description

Perform Oracle software licence reviews and audits for our customers to ensure compliance with their Oracle licence agreement and Oracle's Business Practices while providing value-added services to enhance customer satisfaction.

Detailed Description

Conduct business reviews and audits of customers to determine their compliance position with regard to the terms and conditions of Oracle's pricing, licensing, and business practices and licence agreements. Work with customers to resolve compliance and Software Asset Management issues and provide guidance and management in developing good practices for maintaining future compliance. Responsibility includes the interpretation of Oracle agreements, and the review and reconciliation of software sales activity and accompanying support records and providing licence and business practice advice in support of follow-up sales activities.

Job Requirements: Based in Goring-on-Thames, or on customers' sites, the work involves detailed analysis from varied data sources, problem solving, attention to detail and providing assistance and guidance to other team members and customers. The essential requirement is a thorough and detailed knowledge of Oracles' past and present licensing policies and practices, combined with the ability to comprehend and interpret licensing issues. Strong interpersonal skills; project management skills; strong analytical/business skills; and the ability to work in a dynamic fast paced environment are also essential.
